

[illegible]

□

A large stack of black rolls of material, likely carbon fiber or Kevlar, used for boat construction. The rolls are stacked in a way that shows the edges of many layers, creating a dense, textured appearance. The material has a smooth, slightly glossy finish. The rolls are of varying sizes and are arranged in a somewhat haphazard manner, suggesting a storage or manufacturing area. The lighting is bright, highlighting the texture and color of the material.

SmartLaser™ Sheet Labels

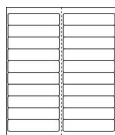

Our SmartLaser™ sheet labels are made with a premium-grade, 50 lb. uncoated, bright-white face sheet with a layflat liner, and a high-quality general purpose permanent adhesive with non-ooze properties that help minimize printer jams, and provide excellent results for a variety of laser and inkjet printers.

Bulk Pack Specifications

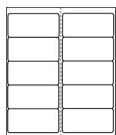

- Sheets are 8.5" x 11" featuring labels with diecut radius (round) corners, and 1/32" edge trim around the perimeter of the sheet.
- Packaged 250 sheets per shrink-wrapped pack, 4 packs per carton. Sold in full carton quantities -- no broken carton orders accepted.
- SmartLaser™ sheet labels usually ship the same day, or 48 hours max after receipt of order.
- SmartLaser™ sheet labels are also available in custom sizes and colors.
